

Follow up survey for February 27-28, 2006 Erosion Control & Mulch Utilization workshop

1. Upon reflection, how useful did you find the February 27-28, 2006 Erosion Control and Mulch Utilization workshop held at the Santa Fe County Fire Station?			Response Percent	Response Count
Highly effective			50.0%	8
Effective			37.5%	6
Average			6.3%	1
Below average			6.3%	1
			answered question	16
			skipped question	0

2. Please rate how successfully the workshop provided/presented the below information.									
	Strongly disagree	Disagree	Somewhat	Agree	Strongly Agree	N/A	Rating Average	Response Count	
Proved the value of slash as a chipped material for use as erosion control	6.3% (1)	0.0% (0)	6.3% (1)	31.3% (5)	56.3% (9)	0.0% (0)	4.31	16	
How woody biomass helps to achieve revegetation following thinning or used on land restoration	6.3% (1)	6.3% (1)	6.3% (1)	31.3% (5)	50.0% (8)	0.0% (0)	4.13	16	
Deeper understanding of the main principles of erosion control	6.3% (1)	0.0% (0)	25.0% (4)	43.8% (7)	25.0% (4)	0.0% (0)	3.81	16	
Where and how specific erosion control practices are applied on the landscape	6.3% (1)	0.0% (0)	12.5% (2)	31.3% (5)	43.8% (7)	6.3% (1)	4.13	16	
Erosion control methods to improve vegetation response and watershed functionality	6.3% (1)	0.0% (0)	12.5% (2)	31.3% (5)	43.8% (7)	6.3% (1)	4.13	16	
Benefits of using composted or mulched forest slash as erosion control on disturbed lands	6.3% (1)	0.0% (0)	6.3% (1)	43.8% (7)	43.8% (7)	0.0% (0)	4.19	16	
								answered question	16
								skipped question	0

3. What topics would you like to have seen covered more?		
		Response Count
		4
		<i>answered question</i> 4
		<i>skipped question</i> 12

4. If possible, would you like to attend an in-field workshop to learn more in-depth practices of applying mulch/compost for erosion control projects?			
		Response Percent	Response Count
Yes		75.0%	12
No		25.0%	4
If yes, please note name and best contact info		50.0%	8
		<i>answered question</i>	16
		<i>skipped question</i>	0

5. What length workshop would you prefer?			
		Response Percent	Response Count
Half-day		28.6%	4
All-day		57.1%	8
Other (please specify)		21.4%	3
		<i>answered question</i>	14
		<i>skipped question</i>	2

6. After attending the February 2006 workshop, have you planned or completed a thinning treatment that included chipping slash for on-site or off-site use for erosion control or on-land application?			Response Percent	Response Count
Yes			25.0%	4
No			75.0%	12
If yes, please elaborate			12.5%	2
			<i>answered question</i>	16
			<i>skipped question</i>	0

7. Approximately how many acres were treated in this manner?		Response Count
		4
		<i>answered question</i>
		4
		<i>skipped question</i>
		12

8. What forest type were you working in (i.e. bosque, pinon-juniper, mixed conifer, ponderosa, etc)?		Response Count
		4
		<i>answered question</i>
		4
		<i>skipped question</i>
		12

9. Can you estimate any extra expense it took to chip the material?		Response Count
		3
		<i>answered question</i>
		3
		<i>skipped question</i>
		13

10. Was money saved by not having to use prescribed burning? If so, please estimate cost savings.		Response Count
		2
	<i>answered question</i>	2
	<i>skipped question</i>	14

11. How was chipped material used? Applied onsite as mulch, composted, hauled for use as mulch at another site or sold to Dept of Transportation?		Response Count
		4
	<i>answered question</i>	4
	<i>skipped question</i>	12

12. What was the main purpose of chipping the material?		Response Count
		3
	<i>answered question</i>	3
	<i>skipped question</i>	13

13. If known, how many cubic yards of material was created from the thinning project?		Response Count
		1
	<i>answered question</i>	1
	<i>skipped question</i>	15

14. What equipment was used to create the mulch and to transport or spread it?		
		Response Count
		3
	<i>answered question</i>	3
	<i>skipped question</i>	13

15. What more could have been presented at the February workshop that would have helped you with your project?		
		Response Count
		3
	<i>answered question</i>	3
	<i>skipped question</i>	13

16. May we contact you to discuss your project further?			
		Response Percent	Response Count
Yes		75.0%	3
No		25.0%	1
If yes, please note name and contact info		25.0%	1
		<i>answered question</i>	4
		<i>skipped question</i>	12

17. What type of business are you in?			Response Percent	Response Count
Compost facility			0.0%	0
Forest thinning			0.0%	0
Land Manager			0.0%	0
State Agency			25.0%	1
Other (please specify)			75.0%	3
			<i>answered question</i>	4
			<i>skipped question</i>	12

18. After attending this workshop, will you plan a project that includes chipped woody material for use for erosion control?			Response Percent	Response Count
Yes			46.7%	7
No			13.3%	2
Undecided			40.0%	6
			<i>answered question</i>	15
			<i>skipped question</i>	1

19. Have you shared information learned at the February workshop with a colleague (regarding the use of mulch for erosion control on their projects)?			Response Percent	Response Count
Yes			93.3%	14
No			6.7%	1
			<i>answered question</i>	15
			<i>skipped question</i>	1

20. Would you like us to contact you to provide one-on-one consultation on a project implementing chipped mulch for erosion control?				
			Response Percent	Response Count
Yes			33.3%	5
No			66.7%	10
If yes, note name and best contact info			20.0%	3
			answered question	15
			skipped question	1

21. Comments or suggestions about this and/or future workshops		
		Response Count
		9
		answered question
		9
		skipped question
		7
