

- ### Overview
- Intel's recycling structure
 - Waste diversion rates and cost savings
 - Corporate/Site recycle teams and vendors
 - Environmental Awareness
 - Innovative projects for the future

- ### Corporate & Site Recycle Teams
- Corporate Team**
- Multidiscipline/Cross Site (VF) team consisting of Operations, Purchasing, Facilities, and Environmental
 - Benchmark other industries and share BKM's
- Rio Rancho Recycle Teams**
- Program Directly Managed by SBM Site Services in partnership with Jones Lang LaSalle and Intel
 - SBM Managed Recycling Vendors
 - Ace Metals: Metal and Plastic Recycling
 - Master Fibers: Cardboard, Carpet, and Paper Recovery
 - Soilutions: Organics Composting and Mulching
 - Mt. Taylor: Dimensional Lumber and Pallet Recovery

Environmental Awareness

- SEAT (Site Environmental Action Team)
 - NM Intel employees promoting environmental culture at Intel by organizing environmental awareness events at Intel NM (example, green bags on energy conservation, sustainable foods, recycling, alternate transportation, etc...)
- 2x Yearly Education Events on Recycling
 - Earth Day & America Recycle's Day
- Circuit Articles, Plasma TV Posters, Updated Signage
- Publicly reported diversion trends

Innovative Projects for the Future

- Composting Program
 - Capturing both pre-consumer and post-consumer food waste as diverted material
- Standardize Recycled-Content Procurement Processes
 - Standardizing the use of recycled content paper, napkins, and paper towels
 - Standardizing the use of recycled content carpet products
