

# 2023 New Mexico Recycling & Solid Waste Conference: *The Value of Materials & Relationships*

**Hosted by The New Mexico Recycling Coalition &  
New Mexico SWANA - Roadrunner Chapter**

**Sept 19-20, 2023  
Sheraton Albuquerque Uptown**

**Thank you to our HDPE Premier Level Sponsors!**

# Thank you to our Premier Sponsors!

**KEEP NEW MEXICO  TRUE**

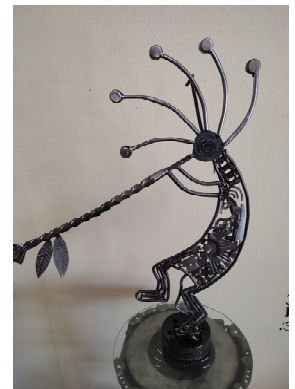

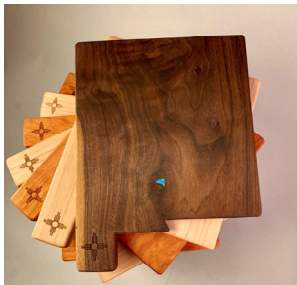

**Parkhill**

## Recycled Art Market

**Wednesday, 11:00-12:00 ~ in the Foyer**

Start your holiday shopping early, while supporting creative recycling and local artists. A handful of Artists from the Recycle Santa Fe Art Festival will be selling their recycled-material art in the foyer on Wednesday. A great example of recycling as economic development and of course, turning trash into treasure!

Left to Right: Recycled art by Allegra Howell, Mitch Berg, Adriana Perez, Michael Mulvey

# NEW MEXICO RECYCLING & SOLID WASTE

## CONFERENCE SCHEDULE AT A GLANCE

### Tuesday, September 19

7:30-8:15	Breakfast & Registration	
8:15-8:30	Welcome Remarks	
8:30-9:30	Keynote Speaker, Liz Chapman Executive Director of Recycle Colorado “Producer Responsibility & Recycling Market Development Policy in Colorado” <i>Keynote Speaker Sponsored by Swire Coca-Cola</i>	
9:30-10:30	Exhibitor Hours & Coffee Break— <i>Coffee Break Sponsored by Parkhill</i>	
10:30-12:00	Breakout Session A	
	<i>Roxy Room</i>	<i>Baldwin Room</i>
	Recycling & Solid Waste Operations - Urban Setting	Recycling & Solid Waste Operations - Rural Setting
12:15-1:30	Buffet Lunch & Exhibitor Hours— <i>Lunch Sponsored by PNM Resources</i>	
1:30-3:00	Breakout Session B	
	<i>Roxy Room</i>	<i>Baldwin Room</i>
	SW Service Management	Organics Diversion
3:15-4:30	Breakout Session C	
	<i>Roxy Room</i>	<i>Baldwin Room</i>
	Workforce Solutions in SW Industry	State & Federal Diversion Efforts and How They Impact New Mexico
4:30-5:30	Exhibitor Hours, Happy Hour & Social Time - Exhibit Hall Recycling & Solid Waste Awards (5:00) <i>Happy Hour &amp; Awards Reception Sponsored by South Central Solid Waste Authority</i>	

### Wednesday, September 20

7:30-8:30	Breakfast, Exhibitor Hours & Registration	
8:30-9:30	Keynote Speaker, Heidi Sanborn Founding Exec. Director, National Stewardship Action Council & California Product Stewardship Council “Product Stewardship, Truth-in-Labeling, Circular Economy & Policy” <i>Keynote Speaker Sponsored by South Central Solid Waste Authority</i>	
9:30-11:00	Breakout Session D	
	<i>Roxy Room</i>	<i>Baldwin Room</i>
	Reduce, Reuse, Recycle	Landfill Management
11:00-12:00	Final Exhibitor Hours, Coffee Break & Recycled Art Market - Exhibit Hall & Foyer <i>Coffee Break &amp; Recycled Art Market Sponsored by Waste Management</i>	
12:00-1:30	Plenary Session Plated Lunch – NM SWANA Roadrunner Chapter—Safety in Solid Waste & Recycling	
1:30-3:00	Breakout Session E	
	<i>Roxy Room</i>	<i>Baldwin Room</i>
	Strategic Outreach & Education	Where to Start? The Power of Data
3:15-4:45	Breakout Session F	
	Scalable Recycling Market Development—Roxxy Room	
4:45	Conference Closes	

# NEW MEXICO RECYCLING & SOLID WASTE

## CONFERENCE SCHEDULE

### TUESDAY, SEPTEMBER 19

7:30 Registration & Light Breakfast

8:15 Welcoming Remarks, Main Ballroom

- **Sarah Pierpont**, NMRC Executive Director
- **Miguel Fernandez**, NMRC Board Vice President
- **Matt Kingsley**, NM-SWANA Acting Board President & Safety Minute
- **Matthew Whelan**, City of Albuquerque

8:30 Keynote Speaker: **Liz Chapman**, Executive

Director of Recycle Colorado, will help kick things off with her talk, “**Producer Responsibility and Recycling Market Development Policy in Colorado.**” Liz

will share information about recent policy changes in Colorado (including extended producer responsibility legislation and the Circular Economy Development Center launch), how these new policies came to be, and how they will affect source reduction, waste and recycling in her state.

*Keynote Speaker Sponsored by Swire Coca-Cola*

9:30 Exhibitor Hours and Coffee Break

10:30 Breakout Session A

#### **Recycling & Solid Waste Operations - Urban Setting—Roxy Room**

Attendees that choose the **urban track** will learn why the City of Santa Fe recently switched to a four-day collection schedule from **Santa Fe’s Environmental Services Division Director, Shirlene Sitton** in her, “Route optimization, Collections & Related Education in the City of Santa Fe,” presentation. This presentation will delve into the City’s recent route optimization project, subsequent collection changes and related outreach efforts. **Catelyn Scholwinski, Senior Consultant at NewGen Strategies & Solutions**, will present, “Maximizing Opportunities and Managing Challenges in Residential Collection,” a case study from Avondale, Arizona. Under the strain of rapid growth, this town of about 90,000 residents evaluated potential operational changes to manage growth and continue to provide quality

service to customers. The presentation will demonstrate how field observations, operational scenarios, growth modelling, and survey data combined to provide city leaders a comparative outlook of capital, operational, and labor costs across different scenarios for garbage and recycling collection and for bulky items collection.

***Speakers:** Shirlene Sitton, City of Santa Fe; Catelyn Scholwinski, NewGen Strategies & Solutions*  
***Moderator:** Ken Ziegler, City of Albuquerque*

#### **Recycling & Solid Waste Operations - Rural Setting—Baldwin Room**

Attendees that choose the **rural track** will hear from

**Gloria Skeet, Chapter Manager at Navajo Nation’s Baahaali chapter & Roselyn John, Community**

**Services Coordinator at Chichiltah Chapter**, as they detail the recent, “Solid Waste and Recycling Management Assessment within Navajo Nation.”

Learn how their efforts to create a cohesive solid waste management plan began with grassroots action that included focus groups from around Navajo Nation to understand the current solid waste landscape. **Jeff Galad CRO from Recycle Coach** will present on, “Helping Small Communities Build Insight-Driven Waste and Recycling Outreach Programs,” by utilizing data and digital tools to improve local programs and optimize time and effort. **South Central Solid Waste Authority’s Program Administrator, Miguel Fernandez**, will present a case study on why and how his program needed to develop a rural alternative recycling collection method to improve customer service and operational efficiency and enhance recycling education efforts with his, “Rural Alternative Recycling Collection Models,” talk.

***Speakers:** Gloria Skeet & Roselyn John, Navajo Nation; Jeff Galad, Recycle Coach; Miguel Fernandez, South Central Solid Waste Authority.*  
***Moderator:** Charles Fielder, Parkhill*

# NEW MEXICO RECYCLING & SOLID WASTE

## CONFERENCE SCHEDULE

### TUESDAY, SEPTEMBER 19 CONTINUED

12:15 Exhibitor Hours and Buffet Lunch

1:30 Breakout Session B

#### Solid Waste Service Management—Roxy Room

It's nearly impossible to keep track of the ever-changing world of technological options available today. Thankfully, **Horacio Marmolejo, the Network Administrator for South Central Solid Waste Authority (SCSWA)**, will do some of the tracking for us with his presentation on, "The Changing Landscape of IT in Solid Waste & Recycling." Horacio will discuss the effects of technology in the solid waste and recycling industry and how SCSWA incorporates that technology to boost efficiency. **Dave Yanke, President of NewGen Strategies and Solutions, LLC**, will take a deep dive into, "Solid Waste Services - When to Municipalize, When to Privatize and How to Know What to Do." Recently Yanke's company conducted numerous studies for municipal clients to assist them in evaluating various services - commercial collection, landfill operations, as well as MRF operations, with the goal of helping the city determine whether they should provide the service themselves (i.e. municipalize), or to privatize it. Attendees will benefit from this wealth of knowledge with recent and relevant examples of case studies that have been conducted in New Mexico, Texas and Wisconsin in the past 3 years. The Electric Vehicle is here to stay, which means batteries are too! **South Central SW Authority's Transfer Station Manager, John Holmes**, will present on, "Electric Vehicle (EV) and Lithium-ion Battery Management." Attendees will learn best management practices and solutions, safety, and current/future trends.

#### Solid Waste Service Management—continued

**Speakers:** *Horacio Marmolejo, SCSWA; Dave Yanke, NewGen Strategies and Solutions; John Holmes, South Central Solid Waste Authority*  
**Moderator:** *Matt Kingsley, Parkhill*

#### Organics Diversion—Baldwin Room

More and more communities across the country understand that diversion of organics is key to increase overall sustainability and extend landfill life. In this session attendees will learn from veteran compost experts. **Michelle Leonard, Sr. Vice President at SCS Engineers and former International President of SWANA**, presents on, "Edible Food Recovery: A Regional Approach to Connecting Food Generators and Food Recovery Organizations," with a case study from a successful regional approach implemented in Southern California. Attendees will gain first-hand knowledge of the steps taken to identify the types and quantities of edible food available for recovery, the capacity of food recovery organizations, and related education efforts. **Amy Larsen, Project Manager/Planner and Jessie Hook, Economic Analyst Intern both with Quivira Coalition**, will highlight the process to start and manage a small scale compost system with their, "Compost in Rural New Mexico: Why it Matters and What it Will Take," presentation. And after all this inspiration every attendee will want to hear from **Genevieve Morgan, Climate Coordinator at NMED: Solid Waste Bureau**, as she speaks about, "Want to Start a Compost Operation? Learn Tips for Getting a Facility Started from a Regulatory Perspective."

**Speakers:** *Michelle Leonard, SCS Engineers; Amy Larsen & Jessie Hook, Quivira Coalition; Genevieve Morgan, NM Environment Dept: SW Bureau*  
**Moderator:** *Ken Ziegler, City of Albuquerque*

# NEW MEXICO RECYCLING & SOLID WASTE

## CONFERENCE SCHEDULE

3:15 Breakout Session C

### Workforce Solutions in SW Industry—Roxy Room

Nearly every other solid waste trade article addresses the driver and worker shortages affecting our industry. So, what are we gonna do about it? In this session, **Brandy Sarver, the City of Albuquerque's Organizational Learning Analyst and Stephanie Flynn, a Business Consultant with the New Mexico Workforce Connections' Workforce Innovation and Opportunity Division** will tell explain how they addressed the situation with their, "Successful CDL Training Partnerships for Your Staff," presentation. The City of Albuquerque has successfully graduated six new CDL drivers from within their own staff to help fill driver shortages through state-funded educational. Attendees will learn how they can access these state funds and how the program has improved staff morale and promoted retention within the City. **Rafael Leos, Deputy Director of South Central Solid Waste Authority**, will take the baton and discuss, "Recruitment & Retention 3.0: Apprenticeship & Micro-Mentoring". In today's workforce, we may understand our conscious workforce culture to help recruit and retain STAR employees or we may face a counterculture. In both cases, the show must go on and solid waste and recycling services are no different. Successful traits in industry leadership are evolving with the workforce or unfortunately facing monumental setbacks. Attendees will learn local strategies and non-traditional recruitment and retention methods that could help you find and keep the illusive rockstars and unicorns.

**Speakers:** Brandy Sarver, City of Abq; Stephanie Flynn, NM Workforce Connection; Rafael Leos, South Central Solid Waste Authority  
**Moderator:** Jill Holbert, City of Albuquerque

### State & Federal Diversion Efforts & How They Impact New Mexico—Baldwin Room

**Melissa John, Sustainability Program Lead and Pam Egan, Sustainability Specialist at NASA White Sands Test Facility** will present on the "Sustainable Acquisition, Reporting, Material Reuse, and Compliant

### State & Federal Diversion Efforts-continued

Product Successes at NASA White Sands Test Facility." Don't let the long title scare you – this is an applicable discussion about the development of a well-researched "Green Products List" and some of the most commonly used compliant products that can help any organization achieve their sustainability goals. **Levi Lementino & Sonia Suazo, Outreach Specialists at NMED: Solid Waste Bureau**, will discuss the state's, "Recycling and Illegal Dumping (RAID) Grants Program," what it is and how to apply with case studies of successful grants. Attendees will learn how this grant can be utilized to address the prevention and abatement of illegal dumpsites, scrap tire abatement/management, the development of recycling programs and the improvement of recycling and scrap tire management infrastructure.

**Speakers:** Melissa John & Pam Egan, NASA White Sands Test Facility; Levi Lementino & Sonia Suazo, NMED: Solid Waste Bureau  
**Moderator:** Charles Fielder, Parkhill

4:30 Exhibit Hours & Happy Hour—Exhibit Hall

5:00 NM Recycling & SW Awards—Exhibit Hall  
*Happy Hour & Award Ceremony Sponsored by South Central Solid Waste Authority*

## WEDNESDAY, SEPTEMBER 20

7:30 Breakfast, Exhibitor Hours & Registration

8:30 Keynote Speaker: **Heidi Sanborn**, founding Executive Director of both the National Stewardship Action Council and the California Product Stewardship Council, will discuss the ins-and-outs of, **"Truth in Labeling, EPR, and How to Achieve an Equitable Circular Economy"**

# NEW MEXICO RECYCLING & SOLID WASTE

## CONFERENCE SCHEDULE

### WEDNESDAY, SEPTEMBER 20 CONTINUED

#### **Keynote Speaker, Heidi Sanborn—continued**

For much too long what happens to products when we're done with them was considered irrelevant to those who produce them. Meanwhile plastic fills our oceans, toxic chemicals pollute our food and water, and the climate is in chaos. The Circular Economy has long been considered just a fantasy, but no more! Learn how we're reducing waste such as mercury containing lighting and closing the loop on packaging, food waste, and much more! The National Stewardship Action Council is leading the nation by demanding radical transparency and truth in labeling so consumers can vote with their dollars, negotiating producer responsibility legislation with the country's largest packaging producers, and advocating for a national bottle bill.

*Keynote Speaker Sponsored by South Central Solid Waste Authority*

9:30 Breakout Session D

#### **Reduce, Reuse, Recycle—Roxy Room**

We all know the waste management hierarchy and mantra of, "Reduce, Reuse, Recycle," but HOW we go about doing these things varies widely in terms of actions and efficacy. In this session **Jalal Rastegary, a Research Scientist at New Mexico State University**, will discuss the "Impact of New Mexico Pollution Prevention and Source Reduction Program." NMSU's College of Engineering provides free, on-sight pollution prevention, energy efficiency and environmental assessment services to NM businesses. Attendees will learn how these efforts have led to a reduction in CO2 emissions by 105,931 metric tons, hazardous waste use by 18,996 tons, energy reduction by 64,434,340 kWh, water conservation of 102,137,645 gallons and cost savings of \$23,758,338 within the past five years. After we reduce pollution and waste at its source, the next step is REUSE. **Scott Guffey, Operations Supervisor at Estancia Valley Solid Waste Authority** will present on, "Estancia Valley's Swap Shop: Case Study on Public Re-use Areas." The popular reuse area is valued by the community, helps to keep items out of the landfill, and provides useful material to community members. Scott will share lessons learned related to operations

#### **Reduce, Reuse, Recycle—continued**

of a successful reuse center. **Ernie Rodarte, Senior Project Manager at PNM Resources**, will wrap up the session with, "PNM's Green Team Efforts to Increase Recycling and Reuse." Learn about the new programs the Green Team recently implemented to increase recycling and reuse at PNM's locations across the state.

**Speakers:** *Jalal Rastegary, NM State University; Scott Guffey, Estancia Valley SWA; Ernie Rodarte, Public Service Company of NM (PNM) Resources*  
**Moderator:** *Rick Sisneros, McKinley Paper*

#### **Landfill Management—Baldwin Room**

**Ray Huff, Vice President at SCS Engineers**, draws upon over 30 years of expertise to discuss, "An Update on WAG Implementation: An Innovation in Landfill Gas Data Analysis." The history of LFG data analysis has ranged from tables to single-parameter graphs, and eventually to multi-parameter graphs. Learn how Mr. Huff and his team evaluated alternatives to the standard multi-parameter line graphs and developed a multi-parameter, multi-well ternary scatter plot, providing multiple parameters of data for an entire wellfield, on a single graph to evaluate the health/compliance of a wellfield more efficiently. **Michael Richardson, from Triad Industrial Consulting**, highlights, "On Board Oil Recycling Systems - Reduce oil use and maintenance costs," to explain how bypass filtration can double equipment life, and, cut lubrication needs (and therefore expenses) in half. "Lessons Learned from the Partial Closure of the Cerro Colorado Landfill," will be shared by **Tom Parker, Project Director at SCS Engineers**. The Cerro Colorado landfill is the cornerstone of the City of Albuquerque's integrated system that manages the disposal of approximately 600,000 tons of MSW per year. The City recently closed approximately 30 acres of the site by installing an evapotranspiration cover, stormwater channels, and an innovative vegetative layer. This presentation will summarize the closure process, construction activities, benefits of partially closing landfill areas, and lessons learned.

# NEW MEXICO RECYCLING & SOLID WASTE

## CONFERENCE SCHEDULE

### WEDNESDAY, SEPTEMBER 20 CONTINUED

#### Landfill Management—continued

**Speakers:** Ray Huff, SCS Engineers; Michael Richardson, Triad Industrial Consulting; Tom Parker, SCS Engineers  
**Moderator:** Matt Kingsley, Parkhill

11:00 Recycled Art Market, Final Exhibitor Hours & Coffee Break—Exhibit Hall & Foyer

12:00 Plenary Session Plated Lunch  
 NM SWANA Roadrunner Chapter, **Safety in Solid Waste & Recycling**

1:30 Breakout Session E

#### Strategic Outreach & Education —Roxy Room

Whether we are trying to educate residents on how to recycle right or basic hours of operation, an effective education and outreach campaign is imperative! **Sarah Ortiz**, project manager with the **City of El Paso's Environmental Services Department**, will outline education, compliance, and collection efforts that the City of El Paso implemented to reduce its curbside recycling contamination rate in her presentation entitled, "Implementing an Effective Recycling Education and Compliance Strategy." **Brandi Misquez, Recycling Education Coordinator with South Central Solid Waste Authority**, will present, "Effective Outreach Methods in Public Schools, and What We've Learned Along the Way," and showcase her efforts to work with public school children to teach young people why and how to recycle right. **Nico Morales of No Halo, LLC** will discuss different types of communication in his, "Trash Talk: Learn the Four Pillars for Strong Communication Skills." Attendees will learn how to elevate their communication skills and ensure that messages are conveyed in an effective manner to the desired audience. Attendees will walk away with knowledge on how to better communicate, examples of successful outreach

**Speakers:** Sarah Ortiz, City of El Paso; Brandi Misquez, South Central SWA; Nico Morales, No Halo, LLC  
**Moderator:** Genevieve Morgan, NMED

#### Where to Start? The Power of Data—Baldwin Room

Thanks to two separate pools of federal funding, the NM Recycling Coalition and Eight Northern Indian Pueblos recently assisted New Mexico's pueblos with waste characterization studies. **Tammy Belone, Director of Natural Resources at Eight Northern Indian Pueblos**, focused primarily on discarded organics to identify types and quantities of wasted food. Ms. Belone will share her findings as part of, "Food Waste at Pueblo Senior Centers: Opportunities and Lessons Learned," presentation. **Sarah Pierpont, Executive Director of the NM Recycling Coalition**, will share data from five waste characterization studies in her talk entitled, "Waste Composition & Related Outreach Efforts Within NM's Pueblos." Attendees will learn how discards at NM's Pueblos compare with each other and against national trends and how to shape outreach and education efforts based on waste study data.

**Speakers:** Sarah Pierpont, NM Recycling Coalition; Tammy Belone, 8 Northern Indian Pueblos Council  
**Moderator:** Sarah Pierpont, NMRC

3:15 Breakout Session F

#### Scalable Recycling Market Development—Roxy Room

It's a quite simple, but also very complicated reality....recycling doesn't work if there aren't markets for recyclables! In this presentation hear from 3 entrepreneurs on creating niche, replicable recycling markets. **Todd Wynward from The Taos Repurposing Plastic Project**, will present on, "Transforming Non-Recyclable Plastics into Building Material." **Shelby Kaye, founder of Broken Arrow Glass Recycling** in Santa Fe will explain how her curbside glass collection program diverts nearly 7,000 tons of glass each month with, "Glass Recycling as a Circular Economy." Juliana Ciano with Reunity Resources soil yard and regenerative community farm will outline, "Compost for Diversion and Economic Development."

**Speakers:** Todd Wynward, The Taos Repurposing Plastic Project; Shelby Kaye, Broken Arrow Glass; Juliana Ciano, Reunity Resources  
**Moderator:** Rafael Leos, SCSWA

# 2023 AWARD WINNERS

Join us in recognizing these outstanding individuals and entities at the Recycling & Solid Waste Awards at 5:00 on Tuesday, September 19th in the Exhibit Hall.  
Happy hour and social time starts at 4:30.

### **New Mexico Recycling Coalition 2023 Recycling Awards**

- Diversion Project of the Year - Reuse Center at Eldorado Convenience Center
- Recycling/Compost Facility of the Year – NM Highlands University Recycling Center
- Recycler of the Year – Shirlene Sitton, City of Santa Fe Environmental Services Division
- E. Gifford Stack Lifetime Achievement Award – Patrick Peck, South Central Solid Waste Authority
- Safety Entity of the Year (Joint Recycling & Solid Waste Award) – City of Albuquerque Eagle Rock Transfer Station, Montessa Park Transfer Station, Don Reservoir Transfer Station & Cerro Colorado Landfill

### **NM-SWANA 2023 Solid Waste Awards**

- Solid Waste Facility of the Year – Buckman Road Recycling and Transfer Station, Santa Fe Solid Waste Management Agency
- Most Innovative Solid Waste Project of the Year – City of Albuquerque Landfill Monitoring Project
- Solid Waste Facility Employee of the Year (non-management) – Kim Rivera, City of Santa Fe Environmental Services Division
- Terrence Nelson Lifetime Achievement Award – Patrick Peck, South Central Solid Waste Authority

# CONGRATULATIONS!

# CONTINUING EDUCATION UNITS

## FOR NMED CERTIFIED RECYCLING, COMPOST, TS & LANDFILL OPERATORS

Attendees to the New Mexico Recycling and Solid Waste Conference who are certified operators of landfills, transfer stations, recycling facilities, or composting facilities may acquire CEUs to apply towards their recertification, per New Mexico Solid Waste Rules, 20.9.7.12 NMAC. Credit may be given for partial or full conference attendance, i.e., you may receive credit hours for each session you attend and document. If you are present for all conference sessions on September 19<sup>th</sup> and 20<sup>th</sup>, you can earn up to 16 CEUs.

Individuals that registered for the separate, off-site additional training and tours on September 21<sup>st</sup>, can earn an additional 8 CEUs. There will be a separate form for those individuals that is handed out on the tour bus on the morning of September 21<sup>st</sup>.

PROCEDURE: Legibly (PRINT) fill out the information below, have the session's moderator or an NMRC or SWANA board member sign the form at the end of the session. Cut this page out to mail or email to NMED

You are responsible for emailing or mailing or emailing a COPY of your completed form to:

New Mexico Environment Department  
NMED / SWB  
1190 St. Francis Dr.  
Box 5469  
Santa Fe, NM 87502  
Attn: Bill Schueler

You can also email the completed form to Bill Schueler at [william.schueler@state.nm.us](mailto:william.schueler@state.nm.us)
